A Carbon Negative Country

Presentation by Sonam Dendup Subba

Outline

- ✓ What is sustainability to us?
- ✓ How we promote sustainability?
- ✓ How we solve Environmental issues?

RITH and SUSTAINABILITY

What is sustainability to us?

- ❖ It means utilizing the resources wisely in present and ensuring that up coming generation is not hampered.
- ❖ Sustainability is our responsibility

How we promote Sustainability

1. Resilient building structure

- ❖ Enhances indoor environment quality
- ❖ Energy Efficiency
- ❖ Rainwater harvest

2. Gender Equality

How we promote Sustainability

3. Preservation of culture and tradition

4. Google Classroom

5. Timely use of laundry

6. Compost out of waste

How we promote Sustainability

7. Community Day

8. Traditional way of Serving

How we solve Environmental issues

Environmental issues are the problems that must be solved if the world is to remain a supportive habitat for humans and other species.

1. Weekly SUPW

2. Stream Adoption

How we solve Environmental issues

3. Social Forestry Day

4. Zero waste hour

How we solve Environmental issues

5. Semester-wise River cleaning

6. Waste segregation

Bhutan Is Not Only A Carbon Neutral But It's Carbon Negative
